

Wall systems

Speed

Speed is a bookcase system designed to combine functionality and design in your living area. Its modularity allows you to create customised compositions that showcase books, objects and devices without compromising on style. From wall-mounted to double-sided, suspended or niche bookcases, Speed adapts to any space, transforming your living room, study or home office corner into harmonious, practical and unique environments.

DOOR OPENING TYPE AND FINISHES OF THE SPEED SYSTEM

This composition presents a type of door opening type from the Speed system, designed to combine functionality and style. Available in different finishes and textures, from wooden doors to Glass Up, from protruding doors in Alumina to flap doors, lift-up doors, drawers and deep drawers, each door opening type enhances the bookcase with different materials and surfaces. The variety of textures and finishes creates a harmonious and refined effect, capable of adapting elegantly to any environment.

SPEED SYSTEM TV STAND

The Speed system integrates TV stand solutions designed to adapt perfectly to any bookcase configuration. It can be mounted fixed to the Speed bookcase, ideal for a linear and harmonious wall, or to the double-sided bookcase. The swivelling TV support on the double-sided bookcase adds further flexibility, allowing you to orient the TV as you wish and thus enhance every corner of the living area. All solutions integrate with the finishes and textures of the system.

ULTIMATE MODULARITY

The Speed system is designed to offer the utmost flexibility in space planning. Every element can be freely combined with the others, making it possible to create personalised compositions suitable for living rooms, studies, home office corners or passageways. Modularity allows you to play with dimensions, shapes, depths and heights, giving rise to functional and elegant solutions that are always perfectly integrated into the environment.

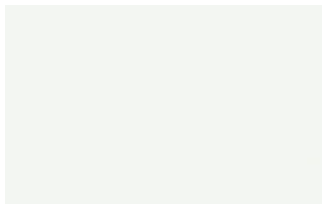

FINISHES

Design your Speed bookcase, customising it in terms of dimensions, textures and finishes, and choose from a wide range of options to create the perfect environment.
