

BONALDO

Litos

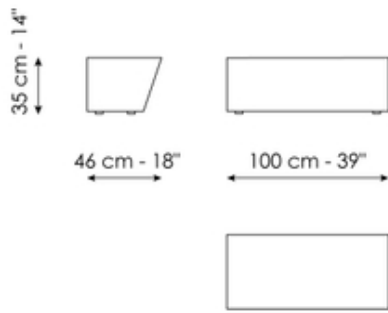

Designer: Giuseppe Viganò

The Litos coffee tables are sculptures/accessories that create a space with a strong, "edgy" and modern character in the centre of the room. They are characterized by extreme essentiality and an absence of voids which highlight both their wooden frame and their compactness. Matchable with their monolithic and complementary trapezoidal shapes, the Litos coffee tables are perfectly suitable for a versatile configuration within the domestic space, in both high and low versions.
