## Ruler

A living room sideboard which, as its name indicates, is inspired by the world of geometry. The design of the Ruler sideboard is based on the concept of formal simplicity which is emphasized by the minimalist frame of the sideboard. The eye is drawn to the continuous lines running across the doors which highlight the horizontal aspect of this item of furniture. Another signature feature of the Ruler sideboard is the combination of the wood of the frame and the metal and aluminium of the base and doors.
