## Sasso

Designer: Gabriele & Oscar Buratti

Sasso is a collection of coffee tables characterised by organic and fluid shapes, inspired by stones smoothed by the flow of water along a river. Available in three shapes, three sizes and three different heights, the Sasso tables are designed to be used individually or combined, placed side by side or layered in multi-level compositions.

The tops, available in marble, ceramic, glass or wood with a concrete finish, rest on cylindrical columns of varying diameters, positioned off-centre beneath the top. This choice, together with the irregular shape of the tops, enhances the sense of asymmetry, particularly evident when multiple elements are combined.

The metal base, offered in a wide range of finishes, completes the design with a clean, essential line that highlights the relationship between material, form and lightness.
